Jenkins CI
Added by Tatiana Gavrila on January 31st, 2024

Disab...   ⚡ Specialized... ▾

Jenkins CI is a customizable continuous integration server with over 600 plugins, allowing you to configure it to meet your needs.

This integration will post build notifications to a channel in Slack.
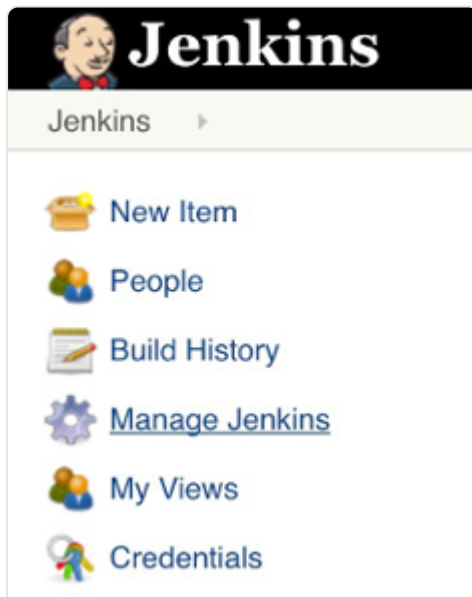

Setup Instructions   close

Here are the steps necessary to add the Jenkins CI integration.

Note: These instructions are for v2.8. To install an older version, go down to **Previous Setup Instructions**.

Step 1   In your Jenkins dashboard, click on **Manage Jenkins** from the left navigation.

Step 2   Click on **Manage Plugins** and search for **Slack Notification** in the **Available** tab. Click the checkbox and install the plugin.

Search   Browse   **Manage**

> **Slack Notification**
> This plugin is a Slack notifier that can publish build status to Slack channels.   2.8

Build

Step 3   After it's installed, click on **Manage Jenkins** again in the le[ft] navigation, and then go to **Configure System**. Find the **Global Slack Notifier Settings** section and add the following values:

⚡ Specialized... ▼

- **Team Subdomain:** `specializedbikes`
- **Integration Token Credential ID:** Create a secret text credential using `stfuDq04bgTm3ma022WJ2IyH` as the value

The other fields are optional. You can click on the question mark icons next to them for more information. Press **Save** when you're done.

Note: Please remember to replace the Integration Token in the screenshot below with your own.

> **Global Slack Notifier Settings**
>
> Slack compatible app URL (optional) [   ] ❓
>
> Team Subdomain   [jenkins-slack-plugin   ] ❓
>
> Integration Token   [   ] ❓
>   ⚠ Exposing your Integration Token is a security risk. Please use the Integration Token Credential ID
>
> Integration Token Credential ID   [some text (bot user slack token) ▼] [➜ Add] ❓
>
> Is Bot User?   ☐   ❓
>
> Channel or Slack ID   [slack-plugin-testing   ] ❓
>
>   [Test Connection]

Step 4   For each Project that you would like receive notifications for, choose **Configure** from the project's menu.

Browse   **Manage**

Build

Specialized... ▾

Step 5   Then you'll need to add **Slack Notifications** to the **Post-build Actions** for this project.

Step 6   In the **Slack Notifications** section, choose the events you'd like to be notified about.
